TURNER USES AN AX

He Beheads Republican and Democratic Clerks.

Rumor Gives Several Reasons for the Action, But Mr. Turner Goes on His Way Rejoicing

Lassing, Mich. March 1.-Auditor General Turner is being roundly cursed by his republican constituents hereabouts today, and all because he is an expert at a system of figuring which they cannot master, even though they have tried their hardest.

The situation is just like this: Yesterday Turner notified Clark G. Russell, George H. Greene, E. W. Clark and Charles H. Thompson, all good republi-can residents of Lansing, whom he appointed to clerkships last month, that because of lack of work their services would not be longer required. Three democrats, namely, Ford Trevellick, Detroit; Arthur Nestor, Grand Rapids, and J. A. Marvin, Sturgis, received the same notice and are out of a job today.

How He Figures It. Turner's peculiar method of figuring is shown by the fact that, whereas he has let four republican cierks go for lack of work, he had three other repub-licans from as many sections of the state report for duty this morning and says
he has promised two more of the faith
ful jobs by May I. He explains matters
by saying that the three republicans
initiated today replace the democrats
dismissed yesterday; but masmuch as
he still retains eight democratic clerks
left over from the last administration left over from the last administration, the discharged republicans cannot get his reasoning through their noddles, and the political moon is covered with blood

both front and rear and all around.

On the quiet Mr. Turner says he had to take in the new clerks, because he promised them last fall that they should have jobs along about this time, but he has not yet given the discharged repub-licans, all of whom are experienced men. thoroughly familiar with the work of the office, a satisfactory reason for re-taining democrats and letting them go.

Help At Last.

BOTH PARTIES ARE ANGRY Thirty Weeks Sick, the Last Twenty Weeks Confined to Bed.

My wife has been sick about thirty weeks, and the last twenty weeks confined to bed, had five doctors, but no benefit; got worse all the time and the doctors said no one could help her; she got weaker and weaker all the time and had dreadful pains and could not stand alone, when, in company with my wife's brother, I called on Dr. S. Clay Todd, 16 North Division street, room 4, and gave him an account of her case. He prepared some medicines, and I began giving them to her. From the start the medicines helped her as Dr. Todd said they would, and she gradually improved and today, after about four weeks using Dr. S. Clay Todd's medicines, she is able to walk ten feet without

assistance. JACOB ZUIDERFELD.
